Dear Hiring Manager,

Application for Data Engineering Internship

As an Information Systems & Big Data Engineering student at **ENSA Berrechid**, I am eager to apply my data systems and software development skills to contribute to your team through an internship.

Key Qualifications

- › **Technical Skills:**
 - **Programming:** Java, C, Python (NumPy/Pandas)
 - **Databases:** SQL, PL/SQL, ER Modeling
 - **Tools:** Power BI, Git, Linux
- › **Projects:**
 - Built full-stack apps with React/Node.js
 - Developed data pipelines using Python and SQL
 - Created dashboards for water management
- › **Certifications:**
 - Data Science Fundamentals (Cisco)
 - Python Programming Bootcamp (365 Data Science)

Value Proposition

My academic and self-directed learning have honed:

- › Problem-solving for complex data challenges
- › Efficient database architecture design
- › Translating business needs into technical solutions

Fluency in Arabic, French, English, and Spanish supports collaboration in diverse teams.

Motivation

I admire your commitment to **innovative data solutions** and am excited to contribute my data processing and system design skills while learning from your team.

Thank you for your consideration. I look forward to discussing how my skills meet your needs.

Imrane Hajji

Future Data Engineering Specialist
